Aliaxis' Zypho® solution awarded 'Solar Impulse Efficient Solution' label

Brussels – June 19, 2024 – Aliaxis, a world leader in fluid management solutions that enable access to water and energy, has received its first Solar Impulse label for its Zypho® shower wastewater heat recovery solution.

The "Solar Impulse Efficient Solution" label is awarded to products and technologies that meet high standards of both sustainability and profitability. This label is granted following a thorough assessment performed by independent experts based on rigorous standards.

This recognition underscores Aliaxis' commitment to sustainable innovation. It highlights the effectiveness of the Zypho® solution in contributing to energy savings and reducing environmental impact while remaining affordable.

"We are honored to receive the 'Solar Impulse Efficient Solution' label for our Zypho® solution. This recognition reflects our dedication to providing innovative and sustainable solutions that meet the highest environmental efficiency and economic viability standards," said Sophie Desormière, Chief Growth Officer at Aliaxis. "The Zypho® solution is a testament to our commitment to sustainability and innovation. It offers a practical solution to reduce energy consumption and environmental impact, aligning with our vision for a greener future."

The Zypho® solution ingeniously captures and recovers heat from drained shower water, reusing up to 75%* of the energy needed to heat fresh shower water. This innovative solution provides a range of economic and environmental benefits, positioning it as a highly anticipated market solution for professionals and consumers alike. This advanced technology significantly reduces energy consumption, operates independently of external power sources, and boasts an expected 50-year lifespan.

Key highlights of the Zypho® solution:

- Energy Efficiency: The Zypho® solution significantly reduces energy consumption by recovering and reusing heat from wastewater, making it an eco-friendly choice for residential and commercial applications.

- Cost-Effective: By lowering energy bills and reducing the need for heating, the Zypho® solution offers substantial financial savings over time, making it a smart investment for environmentally conscious consumers.

*75% efficiency with PiPe SW75 (single wall)

- User Comfort: Heat recovery systems reduce energy consumption without compromising the comfort of the hot water supply or the ecological balance.

About Aliaxis

At Aliaxis, we design sustainable, easy to install, and innovative solutions to address the world's water challenges and accelerate the transition to clean energy. Thanks to our 15,000+ employees, our pipes and fitting systems meet our customers' most demanding needs for the building, infrastructure, industrial and agriculture sectors. Operating in over 40 countries, the Company is active through leading local brands and generated €4.1 billion revenue in 2023. More on www.aliaxis.com
